JACOBS FLIGHT SERVICES, LLC

GENERAL INFORMATION

Jacobs Flight Services, LLC offers complete flight training under FAR 61 & 141. Additionally, Jacobs Flight Services, LLC offers aircraft insurance checkouts, high performance and complex aircraft training.

Jacobs Flight Services, LLC offers flight training for the Private, Instrument, Commercial, Flight Instructor, and Airline Transport Pilot Licenses in both single and multiengine aircraft.

Jacobs Flight Services, LLC has exceptionally maintained aircraft for instruction and rental. All aircraft are equipped with GPS and intercoms for increased comfort and safety. Professional flight instructors with years of Corporate, Airline and Aviation Department Management are available for training for any of the above licenses, as well as for rental checkouts, flight reviews, instrument competency checks and pilot proficiency program. For more information on any of the flight training programs offered or to schedule an introductory flight, call or email today.

PRIVATE PILOT TRAINING

A program of 35 flight hours and 35 ground training hours to obtain a Private Pilots License.

INSTRUMENT RATING COURSE

A program of 35 flight hours and 30 ground training hours. Entering students must hold at least a Private Pilot Certificate.

COMMERCIAL PILOT COURSE

Designed to transition the Private Pilot in a total of 190 hours of flight time to become a Commercial Airplane Pilot.

MULTI-ENGINE COURSE

Program adds multi-engine privileges to your existing Private or Commercial Pilot Certificate Course includes pilots operating supplement.

AGRICULTURAL PILOT COURSE

Is your dream to become an Ag Pilot? We have tailored a Pro-Pilot Program to fit your needs. Course includes advanced tailwheel transition with focus on tailwheel proficiency and time building in conventional gear aircraft.

COMPLEX/HIGH PERFORMANCE

Designed to prepare the pilot for piloting a high performance and/or complex aircraft.

FLIGHT INSTRUCTOR COURSES

Designed to prepare the pilot to earn a single engine flight instructor certificate. Instrument and multi-engine instructor courses are also available.

GARMIN 430 GPS TRAINING

Aircraft and simulators equipped with Garmin GNS 430 GPS. Basic and advanced training available.

ADVANCED TAILWHEEL TRAINING

Experience the joy and challenge of a conventional-gear aircraft and obtain your tailwheel endorsement in a Piper J-3 Cub.

LAKE OKEECHOBEE SCENIC TOUR

Take a tour of the lake and get a birds eye view of fishing hot spots or simply enjoy the beautiful sunsets that Clewiston has to offer.
